PERSONAL SUMMARY

I am a dynamic full stack developer with over 2+ years of experience crafting iOS, Android, and web applications. My projects, including Amsos, Niteon, Africartz and Codemaniac, demonstrate my commitment to creating seamless, visually stunning, and user-centric experiences. With meticulous attention to detail, I ensure flawless UI design and robust API development. I thrive on collaboration and continuous learning, eager to tackle challenges and create impactful solutions. I am ready to contribute to innovative projects alongside seasoned professionals.

SKILLS

Language & Frameworks: HTML5, CSS3, JavaScript, Python, Express.JS, React.JS, React Native, Node.JS, Nest.Js, Nest js
Tools: Git, Github, AWS, GCP, Netlify, Vercel, MongoDB, PostgreSQL, TypeORM, WordPress, Swagger, Postman, REST API, Shell, Bash, Trello, AWS

EXPERIENCE

Software Developer

July 2024-Present

AMSOS (Digital Marketing) - Manchester Area, UK

Remote

www.amsos.ai

- Front-end Design and Implementation: Develop user interfaces, ensure responsiveness, and integrate front-end components with APIs.
- Back-end Development: Create server-side logic, manage databases, implement authentication and authorization.
- Deployment and Collaboration: Set up and manage cloud infrastructure, automate deployment processes, monitor application performance, collaborate with designers and stakeholders, participate in code reviews, and stay updated with industry trends.

Frontend Developer/Mobile Developer

July 2024-Present

NITEON AFROVERSE LIMITED (B2B Marketing) - Colorado, USA

Remote

www.Niteon.co

<https://play.google.com/store/apps/details?id=com.niteonapp.app>

- Mobile App Development: Develop cross-platform apps using React Native and Flutter. Implement SEO with Next.js, integrate APIs, and collaborate with backend, AI, and ML teams. Focus on user-centric solutions and improve based on feedback and analytics.
- Web Development: Create user-friendly web pages with HTML, maintain and optimize websites, design mobile features, and collaborate with backend developers and designers. Gather feedback, write requirement documents, create mockups, assist with coding, ensure graphic standards, and stay updated on tech trends.

Mobile Developer-ios & andriod (Junior)

Mar 2024-May 2024

Africartz(ProTech & Ecommerce) - Lagos

Remote

<https://apps.apple.com/ng/app/africartz-store/id6476979170>

<https://play.google.com/store/apps/details?id=com.africartz.app>

- Mobile App Development: Develop cross-platform mobile apps using React Native, integrate AWS cloud services, utilize Laravel for backend API development, and design responsive UIs with Tailwind CSS.
- State Management and Routing: Manage state with React Context API, implement dynamic routing with React Router, and use Expo for builds, notifications, and device features.
- Collaboration and Agile Processes: Collaborate with team members, participate in agile development processes, including product planning, daily stand-ups, and using Jira for task management.
- App Deployment and Maintenance: Contribute to publishing applications on Play Store and Apple Store, manage

the submission and review process, and achieve user growth through smooth application releases and updates.

Software Developer (Intern)

Feb 2024-Present

Glumia (ProTech) - Lagos

Remote

- Developed robust and scalable server-side applications using NestJS, TypeScript, and TypeORM for building clean APIs and managing databases with PostgreSQL and deploying to AWS for cloud infrastructure management.
- Implemented CRUD operations and business logic with NestJS controllers and services, improving data handling and development efficiency by 30%.
- Integrated TypeORM for seamless database interactions with PostgreSQL, optimizing query performance and increasing development speed by 25%.
- Documented API endpoints using Swagger and collaborated with the front-end team to ensure seamless API integration and user experience, enhancing team collaboration.

Software Developer (Volunteer)

Feb 2024-Present

Codemaniac (Software Company) - Lagos

Remote

- Developed robust, scalable, and user-friendly front-end applications using Next.js and TypeScript for the FrameEye web app, managing the user interface with Tailwind CSS and deploying to AWS.
- Implemented Tailwind for UI design and styling, increasing development efficiency by 30%, and integrated Nest with Next.js for seamless UI interactions, optimizing performance and increasing development speed by 25%.
- Documented API endpoints using Postman, enhancing team collaboration and API integration, and collaborated with the back-end team to ensure seamless API integration and user experience.

Full-Stack Engineer (Volunteer)

Mar 2023-Present

Navigating with Noel (NGO) - Lagos

Remote

- Orchestrated the development and implementation of a backend database using Node.js, Express, and MongoDB, ensuring smooth backend application operations, and transitioned to full-stack development with React and Tailwind for UI development, deploying on Vercel and Netlify.
- Enhanced server response time by approximately 2% through optimization techniques, improving user experience, and collaborated with the back-end team to establish and maintain RESTful APIs with Express.js and Node.js, resulting in about a 2% reduction in data access latency.
- Implemented robust MongoDB database structures, optimizing schema design for improved data management and achieving around a 2% increase in database query efficiency.

Front-End Engineer (Intern)

Jul 2022-Jun 2023

Seed Builders Inn. Hub - Abuja

Abuja

- Crafted visually appealing and responsive web applications using HTML, CSS, JavaScript, TypeScript, React.js, Next.js, Tailwind CSS, and Bootstrap, deploying on Vercel for seamless user experiences.
- Actively participated in code reviews and knowledge-sharing sessions, contributing to a nearly 3% increase in overall team productivity.
- Collaborated effectively with web designers to translate design requirements into functional web applications, enhancing user satisfaction rates by approximately 2%.
- Demonstrated expertise in state management with Redux, optimizing data handling and processing time by close to 2%, and employed efficient maintenance strategies, reducing maintenance time by an estimated 5% through reusable code and best practice standards.

EDUCATION

- Bachelor of Estate Management & Valuation, Federal University of Technology Minna, Nigeria.
(*First Class Honours*) [Oct 2018]
- Software Development Training Certification, Seed Builders Innovative Hub, Abuja Nigeria. [2022-2023]
