PERSONAL SUMMARY

I'm a passionate Software Developer with a reasonable knowledge and experience about frontend and backend development using JavaScript and Node JS for the server side. I'm driven and flexible to learn and work with other programming languages and frameworks to achieve the desired result. I will contribute effectively towards the set goal of any organization and be an active team member.
I often see challenges as opportunity for self-improvement and growth.
A person who is willing to work in any organization with value addition and ready to face complex tasks.

EDUCATION

- 2022-2023 Seedbuilders Innovative Hub, Abuja (Fullstack development Training)

- 2019-2020 NYSC Discharge CertificateNational Youth Service Corps.

- 2013-2018 Federal University of Technology Minna, Niger State (B.Tech)

WORK EXPERIENCE

Navigating with Noel(NGO) (2023-Date)

BACKEND DEVELOPMENT

- I develop server-side logic using Node.js and create server-side logic that handles the storage and processing of data as well as integrating the side and the client.

- I build backend APIs i.e Application Programming Interfaces that helps me to connect front-end apps to access server-side resources and data.

- I integrate databases using Node.js with MongoDB and PostgreSQL to store and manage application data.

- I carryout back-end Node.js testing and debugging the server-side components of the application to ensure that the routes, controllers, middleware and schemas work properly and ensure re-useable codes.

- I optimize back-end Node.js application to ensure scalable, efficient and performs well under high influx of loads.
- I ensure I create a good security by implementing proper authentication, authorization, encryption and routes permission.

Seedbuilders Innovative Hub, Abuja (2022-2023)
FULLSTACK DEVELOPMENT

- I develop user interfaces that are appealing visually using HTML, CSS and Javascript and easy to navigate by the users of the software.
- I use React to build UI components for frontends apps using react states and hooks.
- I collaborate with wed designers to ensure that web/ app meets the proposed design requirement of the product team.
- I optimize the web and apps and ensure that it functions correctly across different devices and platforms to be used on.
- I carry out maintenance and update the codebase by writing re-useable code for easy maintenance and best practice standard.
- I was able to carry out software testing and debugging and I ensured that it functionality is correct and it's serving the use to the users.
- I also carried out product research with my team on a proposed project to ensure it viability and continuity of the software after development.

JOHN & SONS LTD, Abuja (Aug 2021 – June 2022)
Assistant site supervisor

- I was responsible for managing the day-to-day operations of the construction site. I ensured that work is carried out according to the project plan, schedule and specification.
- I oversee and coordinate that activities of construction workers, subcontractors and other site personnel. I assign tasks, provide instructions and ensure that work is being carried out effectively and efficiently.
- I maintain accurate and up-date records related to site activities. Such as daily reports, work progress updates, safety documentation in case of incidents or accidents that might occur.
- I was able to provide leadership and guidance to the site team, I motivate the workers, address conflicts or issues with the team and promote positive and productive work environment.

OBA SHELTER, Abuja (Dec 2021 – July 2021)
Site Project Manager

- I collaborated with the client to define the project objectives, the scope and deliverables. I developed a project plan, establish deadlines and allocate resources and ensure all activities are carried out according to the project requirements.
- I coordinated all aspects of the project such as resource management, subcontractor

coordination and procurement. I ensure that they all work cohesively to achieve the project goals.

- I manage the project finances, prepare cost estimates, tract all expenses and ensure project stays with the proposed budget. I also review and approve project invoices, change orders and monitor the financial performance of the project.
- I was able to identify areas of potential risks and develop strategies to mitigate them. I monitor and address any issues and challenges that may arise during the project execution, minimizing their impact on the project's progress.
- I was able to keep a good communication with the client to ensure that his project requirement is meant.

National Youth Service Corps (2019-2020)
ENERGY COMMISSION OF NIGERIA

- Involved in maintenance of office building services
- Carried out electrical works and maintenance of the office building.
- Carried out mechanical works and maintenance of the office building.
- Carried out routine inspections, maintenance and sanitation of the office and it environs.
- Installations of various office equipment and its maintenance.
- Servicing of the power house of the office.
- Preparation of energy consumption reports.
- Involved in space planning, space allocation and space reorientation.

VIROCK PROJEKTS, Ajah Lagos (Nov 2018 – March 2019)
Assistant Site Manager

- I was involved in the initial planning phase of the project, I collaborated with the Site Architects, structural engineer to determine the project goals, time and the required resources.
- I was able to coordinate and manage site resources, equipment and materials to ensure the smooth progress of the projects and manage the subcontractors and suppliers of equipment for the project.
- I organized and oversee the work carried out by the site team that is workers, engineers, technicians and other staff. I provide guidance, support and resolve issues and conflicts that arises in the site.
- I ensure that the entire operations in the site conform to standards, monitor work progress, conduct inspections and ensure that the construction processes adhere to industry standards and specifications.
- I was in charge of the budgeting and cost estimation for the project. I monitor expenses, manage project finance and ensure that the project is in line with the proposed budget.
- I was also involved in problem solving, I identify issues and resolve issues that have and may arise in the course of the project and I was able to make quick decision and finding a lasting solution to the problem.

Industrial Training (April 2017- September 2017)
JIDE TAIWO & Co. (Estate Surveyors & Valuers), Kaduna

- I carried out Property Management activities such as routine inspections and maintenance, rent demand/ renewal notices, management of client's portfolio, writing of management proposals. Etc.
- I did facility management of various office complexes, space allocation and orientation, management of the core and non-core of various offices.
- I executed various valuation of Land, Land and building, Assets Valuation, Plant and Machinery Valuation as well as preparation of Valuation reports for various purposes.
- Did Marketing and Sales of Land and Buildings, letting among others.
- I carried out a lot of general office practice functions and ensure compliance to the ethics of practice.
- Involved in the preparation of various kinds of office reports for auditing.

KEY SKILLS

- HTML
- CSS
- Javascript
- Git
- Node.Js
- Express Js
- MongoDB
- PostgreSQL
- React

AWARD

Chief Charles Adebiyi's prize for the best graduating student in Valuation endowed by Chief Charles Adebiyi during the 28th Convocation Ceremony of the Federal University of TechnologyMinna held on 1st February 2019.

RESEARCH PAPER
(B. Tech Research Topic)
Student's Perception of the Teaching and Learning of Property Valuation of Tertiary Institutions in Niger State.

INTERESTS
Reading | Traveling | Recreation | Movies| Music| coding
